LIVES

IN YOUR SCHOOL

**ANTHONY
NOLAN**

saving the lives
of people with
blood cancer

INTRODUCTION

Join schools across the country supporting Anthony Nolan and become a superhero to save the lives of people with blood cancer.

Every 14 minutes, someone in the UK is diagnosed with blood cancer.

And for someone with blood cancer, a stem cell transplant from a stranger on our stem cell register can be their only hope of survival.

It costs **£40** to add a potential donor to the Anthony Nolan stem cell register. So raising money is vital for our lifesaving work.

By fundraising for Anthony Nolan, your school is doing something that will save the lives of people with blood cancer.

THAT'S INCREDIBLE, RIGHT?

FASHION SHOW

It's time to ditch the uniforms. Create outfits from material found around school, and sell tickets for a fashion show!

Brave the public in your biggest and wildest hairdo... or wear a wacky wig. The weirder the better.

JOSIE

Josie was 17 when she was diagnosed with aplastic anaemia and told that she'd need a stem cell transplant to survive.

Her sister wasn't a match, so Anthony Nolan stepped in to find her a matching donor on the stem cell register.

Students at Josie's school, Sir William Perkin's, fundraised to show their support, and raised an incredible £3,400 for Anthony Nolan!

And Josie's now doing wonderfully at university.

Anthony Nolan nurses are in Transplant Centres across the country, and can offer invaluable support to our patients and their families after a transplant.

You can help make stem cell transplants as successful as possible, from finding the best matches for patients, to improving life after a transplant.
